Summary

Computer Science (AI & ML) undergraduate and full-stack software developer with hands-on experience building REST APIs, web applications, and AI/ML systems using Java, Python, JavaScript, React, and Node.js. Delivered 4+ production applications, 2 months of full-time industry experience as a full-stack developer, and led technical workshops for 80+ students.

Education

Anil Neerukonda Institute of Technology and Sciences Visakhapatnam, India
B.Tech, Computer Science Engineering (AI & ML), CGPA: 7.83/10.0 *Aug 2023 - Expected 2027*

Experience

Shougan Digital LLP On-site, Full-time
Full Stack Web Developer *May 2026 - Jul 2026*

- Developed and shipped full-stack web features end-to-end using JavaScript, React, Node.js, and Express, working directly with a live production codebase in an on-site team environment.
- Implemented and consumed REST APIs, wrote and debugged backend logic, and collaborated with senior developers on code reviews, version control (Git), and Agile/Scrum sprint planning.

Edunet Foundation (IBM SkillsBuild) Remote, Part-time
AI Intern *Jun 2026 - Present*

- Trained and evaluated 3-4 machine learning models end-to-end (data preprocessing, training, and evaluation), improving prediction accuracy through structured performance analysis.
- Applied cloud-based AI tools to prototype and deploy machine learning solutions, debugging models and refining workflows in collaboration with mentors and peers.

Incraftiv India Remote, Part-time
SEO Intern *Jul 2026 - Present*

- Conducted keyword and competitor research across 50+ keywords and optimized on-page SEO for 20+ pages, improving search visibility using Google Search Console and Analytics.

Google Student Ambassadors India Visakhapatnam, India
Campus Ambassador *Aug 2025 - Present*

- Led AI, ML, and Web Development workshops for 80+ students and mentored teams through 3-5 hackathons.
- Organized an 8-hour inter-college hackathon with 80+ participating teams, coordinating end-to-end logistics and cross-team communication.

Microsoft Initiative Remote, Part-time
AI Azure Intern *May 2025 - Jul 2025*

- Deployed 2-3 AI-driven, cloud-based ML pipelines using Azure services and Azure AI APIs, integrating IAM-based access controls for secure delivery.

Projects

VerifyX React, TypeScript, Node.js, Express.js, MongoDB, Gemini AI, JWT, REST APIs

- Designed a full-stack trust-scoring platform with JWT authentication, encrypted (bcrypt) password storage, and REST APIs generating fraud/misinformation risk reports in 3-5 seconds; deployed on Render.

DEVTEAM React.js, TypeScript, Node.js, REST APIs, AI Agents, Railway

- Architected a multi-agent backend automating 4 core development stages (planning, code generation, testing, documentation) with a real-time React dashboard for task tracking.

AI Study Assistant Python, MongoDB, Streamlit, LLM APIs

- Engineered a full-stack RAG application with a backend PDF-processing service supporting 4-5 file formats for semantic search and context-grounded Q&A.

Technical Skills

Languages: Java, Python, JavaScript, TypeScript, SQL
Backend & Web: Node.js, Express.js, Spring Boot, FastAPI, REST APIs, React.js, Next.js, HTML, CSS
Databases: MongoDB, MySQL
Cloud & DevOps: AWS, Azure, Docker, Git, GitHub Actions, Vercel, Render
AI/ML: Gemini API, OpenAI API, NLP, RAG
Core CS: Data Structures & Algorithms, Object-Oriented Design, Operating Systems, Computer Networks, DBMS
System Design: Scalability, Load Balancing, Caching, Sharding, Microservices, Message Queues, API Design, CAP Theorem
Methodologies & Tools: Agile, Scrum, Sprint Planning, Git, Postman, Jira, Trello, Slack, VS Code

Certifications and Achievements

Certifications: Google Cloud Gen AI Academy (2026), IBM SkillsBuild AI Professional Certificate (2026), AWS Cloud Technical Essentials - Coursera (2026), Microsoft Azure AI and Cloud Workflows - Edunet (2025)
Achievements: Solved 350+ problems on LeetCode and HackerRank; created an automated data-scraping and NLP pipeline for keyword and semantic-search optimization.
